Environmental Policy

A R Richards Ltd is a family run business established in 2003 to serve customers in the agricultural and construction sectors. Since then our business has expanded and now incorporates the following divisions:

- Agriculture (plant hire and machinery operation)
- Construction / Demolition (earthworks, excavations and demolition work)
- Waste Management (Collection and treatment of inert wastes for re-use in construction and landscaping sectors, general and hazardous waste, skip hire and euro bins)
- Builders Merchants (Sales of materials, including recovered aggregates)

As a responsible company we recognise that our business activities may have both positive and negative environmental impacts.

A R Richards Ltd aims to:

- Comply with all applicable environmental legislation, such as that relating to waste management and environmental permitting
- Prevent or reduce pollution from our activities
- Continually improve our environmental performance

Specific aims are to:

- Maximise the recovery of inert wastes from construction, demolition and excavation activities and reduce the amount of these wastes disposed to landfill
- Manage wastes that can not be recycled in a responsible manor
- Monitor and measure our performance to ensure that standards are maintained, and environmental impacts are limited
- Seek ways to improve performance through good housekeeping
- Always consider environmental performance criteria when purchasing equipment and goods
- Communicate our environmental policy to all employees, contractors and visitors.
